Backyard Buddies
Your monthly guide to pests, weeds and diseases

The Season for Giving (Responsibly)

November 2026

Examples of inappropriate items to post or carry interstate: bee products including honey and beeswax candles, homemade dried fruit and plant materials, and fresh produce.

The holidays are a time for giving, travelling and spending time with loved ones. Unfortunately, this season also sees a spike in biosecurity breaches. The good news – we can still show our friends and family we care, without compromising our enviable biosecurity status.

Western Australia is subject to some of the strictest biosecurity measures in the world; our geographic isolation means we have been able to avoid many of Australia and the world's worst pests, weeds and diseases. However, this natural advantage is very much tested during the festive season. Every year, well-meaning travellers and gift-givers accidentally break the rules. Fresh fruit, vegetables, seeds, live plants, and bee products are frequent culprits. Quarantine WA officers intercepted more than 54 tonnes of quarantine risk material from travellers entering the state in the 2025-26 period.

Over the past year, inspectors seized more than three tonnes of honey alone. While a jar of artisanal honey might seem like the perfect gift, it poses a significant threat to WA's disease-free bee populations. Even more surprisingly, officers found some curious hauls in airport luggage, including a whopping 50 kilograms of fresh chillies and 18.5 kilograms of mud crabs! It isn't just airline passengers who need to be mindful. As festive care packages peak, our postal services become a vital biosecurity frontline. Last year, nearly 1.3 million interstate parcels were screened at postal facilities across Perth. When you mail plant materials or untreated wooden items, you might be packing more than just holiday cheer.

Worth celebrating, Quarantine WA successfully intercepted 120 imports contaminated with significant insect pests, including mealybugs, leaf miners, aphids, and caterpillars. Additionally, a total of 91 prohibited plant and animal species were stopped at our border and contained before they could impact our environment. The result of these pests slipping through could have been devastating, potentially severely damaging native ecosystems, hurting our primary industries, and costing the state millions in lost export markets.

Fortunately, the overwhelming majority of us are doing the right thing. Most biosecurity breaches aren't malicious; they're accidental. Sharing is caring but before you pack your bags or send that Christmas parcel, take a moment to check the State's import requirements. When travelling, declare your items; or if you've mistakenly brought something you shouldn't have, drop it in the quarantine bins at the terminal. If you're sending a gift, swap the fresh fruit, plants, seeds, or honey for safe alternatives like commercially packaged chocolates or a good book. Don't forget to remind

your loved ones. *Wishing you all asafe,happy,and biosecurity-consciouslead up to theholidays.*

MOVEMBER

MEN'S HEALTH AWARENESS MONTH

Movember Men's Health Guide

Movember is a great time to focus on men's health and staying well. Here's a quick guide with essential tips to help you stay on top of your health all year.

Get those checkups

Prostate Screenings: Start at 50 or earlier if it runs in your family.
Testicular Self-Checks: Quick monthly checks are key, especially for ages 15-35.
Annual Checkups: A yearly visit to your doctor can catch things early.

Take Care of Your Mental Health

Connect: Chat with friends and family to stay grounded.
Use ALEC: Ask, Listen, Encourage action, Check-in to foster supportive conversations.

Exercise and Fitness

Regular Activity: Aim for 30 minutes of exercise most days to enhance overall health.
Benefits: Consistent physical activity supports cardiovascular health, mental well-being, and overall resilience.

Sleep and Stress Management

Adequate Rest: Ensure 7-9 hours of sleep per night for optimal functioning.
Stress Reduction: Incorporate mindfulness and relaxation practices to maintain mental health.

Stay proactive and prioritize your well-being

For assistance or additional information, visit **www.movember.com**. Remember, maintaining health is an ongoing commitment.

Listen to your lungs – know the symptoms of lung cancer

People in the SouthWest are being urged not to ignore changes to their health, with Cancer Council WA reminding people that recognising lung cancer symptoms and acting early can make a real difference.

During Lung Cancer Awareness Month this November, Cancer Council WA is encouraging people to see their doctor, clinic nurse or Aboriginal health worker without delay if they notice unusual or persistent symptoms.

Symptoms to be aware of include:

- Coughing or spitting up blood (once or more) or for more than four weeks
- A cough that won't go away or gets worse
- Trouble breathing
- A chest infection that won't get better
- Losing weight without meaning to
- Not feeling hungry
- Pain in your chest and/or shoulder
- Feeling tired or weak
- Changes to your voice, such as hoarseness or croaky voice

If you have these symptoms, it doesn't mean you have lung cancer. Often, these symptoms turn out to be caused by something less serious, but the important thing is to get them checked by a doctor rather than putting off making an appointment.

If you're concerned about someone you care about who has ongoing symptoms, encourage them to see their doctor. Finding lung cancer early can make treatment easier and help people have more time to do the things they love with the people they love.

To find out more information about common cancer symptoms, visit www.findcancerearly.com.au, or call Cancer Connect on 13 11 20.

Staying in Place

Living Where You Feel Most at Home

What is Staying in Place?

Staying in Place means continuing to live in your own home and community as you get older, with the support you need to remain safe, comfortable, and independent.

For many people, home is more than just a house. It is where memories are made, routines are familiar, and connections with family, friends, neighbours, and the community are maintained.

Why is Staying in Place Important?

Comfort & Familiarity

Remain in a place that feels safe, known, and meaningful.

Independence

Continue making choices about your daily life and routines.

Community Connection

Stay close to family, friends, neighbours, and the services you know and trust.

Wellbeing & Confidence

Enjoy a sense of belonging, security, and control over your lifestyle.

"Supporting people to remain connected, independent and engaged in their community."

Shire of Harvey Firebreak Notice

Responsibilities

Landowners are required to carry out fire prevention work in accordance with the requirements of this Notice, on or before 30 November 2026, pursuant to Section 33 of the Bush Fires Act 1954. You have a responsibility to manage your property to reduce the risk of bushfires. This Notice explains the actions you must take to manage your property and the dates when those actions must be adhered to.

Compliance

The Shire will inspect properties for compliance from 1 December 2026. Failure to comply with the requirements of this Notice is an offence under Section 33 of the Bush Fires Act 1954 and may result in enforcement action. The maximum penalty is $5,000. Where the owner or occupier fails to comply, the Shire may enter the land, carry out required works, and recover costs incurred from the owner and/or occupier of the land.

Variations to Firebreak Requirements

If you are unable to comply, you may apply to the Shire by 1 November 2026 for approval to provide firebreaks in alternative locations or undertake alternative fire hazard reduction measures. Applications must be submitted using the form available at harvey.wa.gov.au/services/fire-and-emergency-management. Unless approved in writing by the Shire, you must comply.

Special Work Orders

The Shire retains the ability to issue Special Work Orders with this Notice pursuant to Section 33 of the Bush Fires Act 1954, to landowners should additional works be necessary for fire hazards on a property. These can be issued at any time. Properties subject to an approved Bushfire Management Plan as a condition of subdivision or development approval, or approved treatment plan, must comply with the requirements of that plan and this Notice unless otherwise approved in writing by the Shire.

Rural land

Firebreaks must be at least 3m wide with a minimum vertical clearance of 4m and maintained in the following positions:

· Located within 10m of all boundaries of the property/land.
· So as to divide the land into areas of not more than 120ha.
· Around groups of buildings, haystacks and fuel installations but not closer than 6m.

Irrigated Land

Irrigated land kept fully watered and maintained in a non-flammable state for the entire Restricted and Prohibited Burning periods may not require a firebreak.

Fuel and gas depots

Maintain the land clear of flammable materials for 20m from any edge of the storage unit.

Plantations

Provide 15m wide firebreaks immediately adjoining to external boundaries of the planted area. The outer 10m should be cleared of flammable material while the inner 5m (closest to the trees) kept in a reduced fuel state. Provide internal 6m wide firebreaks so as to divide the land into areas of not more than 30ha.

Urban Development/Residential exceeding 2024m2

Firebreak of at least 2m wide with a 4m high vertical clearance must be provided and maintained in a non-flammable state within 6m of the property boundaries. Cleared hardstand areas and reticulated grassed areas maintained in a green state are acceptable.

Urban Development/Residential 2024m2 or less

Flammable material on the property (noting that this does not include living, standing trees, shrubs, plants and lawn under cultivation) is to be reduced and maintained to a height of less than 5cm.

Definitions

Firebreak

A strip of land which has been cleared of all flammable material such as wood, leaves and grass that is likely to be ignited and capable of burning. It must be trafficable, meaning it must be accessible by a fire appliance and cleared of vegetation without any obstruction to the vehicle. Firebreaks should be designed to allow safe access for firefighting vehicles wherever practicable.

Flammable materials

Accumulated fuel such as leaf litter, twigs, bark, grass over 5cm high, timber boxes, cartons, paper and any combustible material, capable of carrying a running fire but excludes living standing trees and shrubs.

Urban Development/Residential Land

Land within a townsite or urban area, including land zoned Residential, Urban Development, Commercial and Industrial.

Rural land

Includes land zoned Rural, Rural Residential and Priority Agriculture.

Flammable fuel storage

Includes all petroleum-based liquids, Liquefied Petroleum Gas, Liquefied Natural Gas, any other combustible liquid or gaseous fuel.

Hay stack

Any collection of hay including fodder rolls placed or stacked together that exceeds 100m3 in size (eg. 5m x 5m x 4m) whether in a shed, other structure or in the open air.

Strip of land

Land cleared of flammable materials, such as wood, leaves and grass that is likely to be ignited and capable of burning; it must be maintained throughout the period.

Irrigated land /hard stand/reticulated grass

Land that is kept fully watered and maintained in a non-flammable state for the entire Restricted and Prohibited burning periods.

Plantation

Any area exceeding 3ha planted for commercial gain. Including pine, eucalypt or other commercial value trees, excluding orchards and vineyards.

Special risks

Areas that adjoin public roads, railway reserves and power lines.

Trafficable

Capable of supporting the safe passage of a four-wheel drive fire appliance under normal operating conditions.

Vertical Clearance

A continuous vertical uninterrupted line at a right angle to the horizontal line of the firebreak.

Burning of Garden Refuse

Not permitted during the Prohibited Burning Period, Total Fire Bans or when the Fire Danger Rating is HIGH or above.

·The person intending to light the fire must telephone the Department of Fire and Emergency Services on 9395 9209 and register the burn immediately prior to lighting the fire. The fire shall only be lit between 6pm and 11pm and completely extinguished before midnight on the same day;

·There is no flammable material (other than that being burnt) within three (3) metres of the fire

·Only one pile (up to one (1) cubic metre in size) of garden refuse may be burnt at any one time;

·At least one person must remain in attendance until the fire is completely extinguished;

·The fire may only be lit on privately owned land;

·Wind conditions must be light (below 20 km/h) and smoke must not cause a nuisance to neighbours.

Gas and electric barbecues

Enclosed gas and electric barbecues may be used throughout the year, including during a Total Fire Ban, provided they are used for cooking only;

·fitted with an enclosed flame; and flame or heating element is fully enclosed by the appliance
·operated at a private residence or an authorised public barbecue area.
·Barbecues with exposed flames must not be used during a Total Fire Ban.

Campfires, fire pits, wood-fired barbecues and pizza ovens

These appliances may only be used for cooking during the Unrestricted and Restricted Burning Periods. They must not be used:

·during the Prohibited Burning Period;
·during Total Fire Bans or during a Harvest and Vehicle Movement Ban; or
·when the Fire Danger Rating is High or above.
When in use:
·maintain a minimum 5m clearance from inflammable material;
·keep a suitable means of extinguishment immediately available;
·remain in attendance at all times and;
·take reasonable precautions to prevent smoke from causing a nuisance.
·during the Restricted Burning Period, appliances can only be used between the hours of 6:00pm and 11:00pm and extinguished by midnight that day. Exemptions may apply

Permit to burn

During the Restricted Burning Period, a permit is required to burn grass, paddocks, or bush. Permits must be requested at least 72 hours in advance from your local Bush Fire Control Officer. Permits are issued in writing and are only valid for the dates specified. If a permit is refused, you cannot reapply for the same burn but may request the Chief Bush Fire Control Officer review the decision. All permit holders must comply with the following conditions, and special conditions outlined in the permit.
·The person intending to light the fire must telephone the Department of Fire and Emergency Services on 9395 9209 and register the burn immediately prior to lighting the fire;

·Contact the Shire Administration Centre no later than 24 hours prior to the day when the proposed burn is to take place.
·Weekend burning must be notified by Friday at 4pm on 9729 0300.
·Notify the owner and/or occupier of adjoining land at least four days, but no more than 28 days, before burning. If notice is given verbally, a shorter notice period may be agreed between both parties.
·Contact the nearest Department of Biodiversity Conservation and Attractions (DBCA), if the land is situated within 3km of State Forest Land, National Parks, Nature Reserve and other DBCA lands on 9735 1988.
·Burning under permit is permitted during the Restricted Burning Period on Sundays and Public Holidays.

During the Restricted Burning Period, you must register the burn with the Department of Fire and Emergency Services on 9395 9209 immediately before lighting it. At least one person must remain in attendance and be contactable by mobile phone, with a suitable water source on-site ready to control or extinguish the fire. For more information, visit harvey.wa.gov.au

Mediterranean Salad

FREE SIMPLE RECIPE YOU CAN TRY AT HOME

Recipe: by Lisa Longley (simplejoy.com)

Ingredients:

- 1 lebanese cucumber cut into 1/2 inch half moons
- 4 Roma tomatoes cut in half and then cut into 1/2 inch pieces
- 1/2 red onion cut into thin slices
- 1 cup kalamata olives pitted and cut in half
- 4 ounces feta cheese cut into 1/2 inch cubes
- 2 tablespoons olive oil
- 2 tablespoons red wine vinegar
- 1 teaspoon Greek oregano
- 1/2 teaspoon kosher/plain salt
- dash freshly ground black pepper

Instructions:

- Combine the cucumbers, tomatoes, onion, and feta in a large bowl.
- Season with the olive oil, red wine vinegar, oregano, salt and pepper.
- Toss to combine and serve.
